Reviews

A high quality pdf as well as the typeface applied was exciting to see. It really is written in simple words and phrases rather than difficult to understand. You will not really feel monotony at any time of your time (that's what catalogs are for relating to in the event you question me).

Steven Tonsager, one of the most active practitioners of FCT, shares his work, which led him to form theories about the power of energy medicine in treating patients and his own life. Although Steven was influenced by FCT founder Dr. Savel Yurkovsky, Dr. David Hawkins, and Dr. William Tiller, he explores new territory in the book, giving FCT practitioners and others powerful, practical tools and strategies to uncover insights into the cause and treatments of various health issues. In The Powers of Attention, Attraction, and Intention in Field Control Therapy: My Pathway of Adventure, Discovery, and Healing, Steven offers the following: New ideas to help patients understand differences between conventional and informational medicine by providing clinical examples. New methods for FCT practitioners to test patients to improve results, as well as new ways to make FCT remedies and administer them to patients. Additional concepts to connect FCT testing with toxicological principles. Practical methods to apply MEMON technology for patients with sensitivity to electromagnetic fields produced by technology. Steven, who hopes his book will inspire others to integrate FCT into their professional and personal lives, also details his path of discovery during his work with patients in his sometimes irreverent style, describing the transformation in his thinking after administering more than 10,000 FCT tests. Those findings led to discoveries explored in the last...
