Fun with Meat: The Carnivore's Cookbook (Paperback)

By Kip Koehler

Createspace Independent Publishing Platform, United States, 2013. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. It has been theorized that humans switching from a vegetarian diet to a meat-occasional diet was responsible for the relatively rapid growth of their brains. That larger brain allowed them to outsmart their prey and avoid dangers. In addition it reduced the need for having a large gut, which was required to process difficult-to-digest foodstuffs. This high-fat regimen also gave them the means to ascend to the top of the food chain by running down large prey that had more speed but less endurance, due to their diets. Today, most of us consider beef to be a special treat that is available nearly everywhere. While legumes are a reasonable substitute for the meat protein that is lacking in vegetarian dishes, they may not be as satisfying to all. And no, I am not sponsored by the meat industry. Over time I have accumulated a number of recipes that are conducive to being prepared in a single vessel, and I have reworked others to fit into this pattern. The result of this is a cookbook...

Reviews

This is the very best publication I have got read until now. It is definitely simplified but shocks within the fifty percent of the pdf. You may like how the article writer create this pdf.

-- Rosario Durgan

The ideal publication I possibly go through. I was able to comprehend every thing out of this published e publication. I am delighted to explain how this is actually the finest pdf I have got read inside my personal existence and could be the very best ebook for possibly.

-- Roberto Friesen
