Who is the doctor or nurse who for better, or worse, you cant forget The patient who changed your life Thirty-eight contemporary writers explore with memoir, story, and poetry the different ways we talk about, to-and through-each other at the doctors office, hospital, or sickbed. One surgeon celebrates his first surgical success; another grieves the death of a patient. A nurse finds her compassion exhausted by a suicidal patient; another keeps an unsentimental inventory of those moments that make it all worthwhile. Patients transitioning from a state mental hospital collaborate with clinicians to write an essay about their experiences. A mother poignantly reviews her sons twenty-five years with congenital heart disease. A woman with Crohns disease ponders the nature of her twenty-year relationship with her physician; another masters the Zen of medical appointments in a fractured system. Nurses find themselves patients; patients grow into therapists. This book should appeal to anyone familiar with the view from the bed or the view from the bedside-and with our need individually and as a society for a comprehensive view that compassionately holds them both.
