By Kansas Geological Survey

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1903 Excerpt: .by the heavy accumulation of silt. North of the Kansas river and east of the Blue, portions of the valley were injured by cutting and by the accumulation of sand. The soil over a large part of the area was greatly benefited by the flood. South of the Kansas river just below Manhattan heavy washing was done, cutting up the fields badly and piling sand in many places, so that much damage was done. Just west of St. George, on the north side of the river, the Union Pacific track was washed out and the land between the track and the river principally covered by sand. Also, about one-half way between Manhattan and St. George, at the place where the river makes the large sharp bend south, the land on the south and concave side of the river was badly washed and much sand deposited. Wamego...
